Yup, I remember. What I sent to the community is more covering what occurred through Atkins' community meeting, but I'll send along anyway.

David.A.Storms@hud.gov and Laura.L.Myers@hud.gov

EPA has an MOU with HUD and we are supposed to notify them of events and field work near HUD housing.

It did, but I wanted them to see what we are sending out. I will send this to them. We do need to add the HUD people to the list of stakeholders for future notices and updates.

I did not. I was under the assumption that your previous communications with them gave them that info.

Looks great. Did you send to Rebecca Storms at TCEQ and Jessica Kessinger at TXDSHS? We may also want to send to Laura Meyers and David Storms at HUD.

Subject: Lane Plating Works Inc. Site Document Update

Good morning,

I just wanted to update you regarding some of the follow-up EPA mentioned at Councilman Atkins' community meeting on March 7, 2019.

If you go to <https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.scs&id=0605240&doc=Y&colid=36687®ion=06&type=SC>, there are three new site documents uploaded. There you will find the Sampling and Analysis Plan, which shows how EPA will be sampling for potential site contamination. You will also find the Conceptual Site Model

Technical Memo, that details site information, characteristics and conditions. And finally, there is also the Response to Questions document that detail every question asked by the public at the March 7 meeting.

The site sampling is scheduled to start in May 2019, so expect to see a sampling team at the site during this time. EPA is also planning to strengthen and improve the fencing around the site to deter any unauthorized access, and is moving forward with establishing a site Community Advisory Group. Please keep an eye out for more updates in May 2019.

Thanks,

-Ed-
